#### Patient Approval for Chiropractic Care and Services

#### **Informed Consent to Chiropractic Care**

04/28/19

Please discuss any questions or concerns with the Doctor before signing this consent.

I hereby request and consent to the performance of Chiropractic adjustments and other Chiropractic procedures, including various modes of physical therapy and diagnostic X-rays, on me (or on the patient named below for whom I am legally responsible) by the Doctor of Chiropractic named in this document.

Though Chiropractic adjustments and treatments are usually beneficial and seldom any problem, I understand and am informed that there may be some risks to treatment. Risks include, but are not limited to, fractures, disc injuries, strokes, dislocations, sprains, strains, muscle and/or joint tenderness. I do not expect the doctor to be able to anticipate and explain all risks and complications, and I wish to rely on the doctor to exercise judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known, and is in my best interest. I understand that receiving Chiropractic care in this office that it does not guarantee results.

I understand that I may be receiving any of the following treatments:

Consultation and Bio-Structural Examination Chiropractic Adjustments (hands-on and/or with low force instruments) Ice and/or Heat Flexion and Distraction Traction of the Spine Rehabilitation Strengthening and Stretching Exercises Cervical Traction

X-Ray Consent (Please Note: Your X-rays are a document of your file and the property of this office.)

The Doctor or Assistant has explained that the purpose of the x-rays about to be taken is to analyze the spine for vertebral Subluxations and to determine the appropriateness of Chiropractic spinal adjustments. If the doctor discovers a non-Chiropractic "unusual finding" when reviewing this x-ray, I will be informed. I then must determine if I should seek the services of an additional health care provider for advice, diagnosis, or treatment for the unusual finding. I understand that seeking advice from another type of health care provider should not interfere with the Chiropractic care provided by this office.

\* If under 18 yoa, a Guardian must consent for approval for x-rays.

FEMALES:

If there is any possibility that you may be pregnant, notify the doctor, as x-rays might not be taken at this time. Pregnancy Release:

This is to certify that to the best of my knowledge, I am <u>NOT</u> pregnant. I understand that there are risks of taking x-rays to an unborn child. I fully understand the above release and consent Camp Hill Family Chiropractic to perform an X-ray examination on me today and in the future.

#### **Terms of Acceptance**

When a patient seeks Chiropractic Health Care and we accept a patient for such care, it is essential for both to be working towards the same objective. Chiropractic has only one goal. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

<u>ADJUSTMENT:</u> An adjustment is the specific application of forces to facilitate the body's correction of vertebral Subluxation. Our main method of correction is by specific adjustments of the spine and/or extremities.

HEALTH: A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

<u>VERTEBRAL SUBLUXATION:</u> A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do <u>not</u> offer to diagnose or treat any disease or condition other than Vertebral Subluxation. However, if during the course of a Chiropractic Spinal Examination, we encounter Non-Chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others.

**OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the expression of the body's innate wisdom.

**OUR ONLY METHOD** is specific adjusting to correct vertebral Subluxations.

#### **Patient Messaging Consent**

Signature of Parent/Guardian:

Initial for Approval: \_\_\_\_\_

By supplying my home phone number, mobile phone number, email address, and any other personal contact information, I authorize my health care provider to use my personal information, the name of my care provider, the time and place of my scheduled appointment(s), and other limited information, for the purpose of notifying me of a pending appointment, a missed appointment, overdue wellness exam, balances due, lab results, or other communications via an automated outreach and messaging system. I also authorize my healthcare provider to disclose to third parties who may intercept these messages (individuals you have provided with access to your digital devices or email accounts) limited protected health information (PHI) regarding my healthcare events. I consent to the receiving multiple messages per day from the automated outreach and messaging system, when necessary.

#### Notice of Privacy Practices for Protected Health Information (HIPAA)

I have been offered a copy of our HIPPA document for review and was given an opportunity to ask questions regarding how my health information is protected at this practice.

#### Consent for treatment, Assignment of Benefits, Release of Information, Records Submission

My signature implies consent for treatment. I request payment of government benefits and other medical benefits to this office, if accepting assignment. I authorize the release of any medical information or other information necessary to process a claim. I authorize this office to obtain medical records from other healthcare facilities.
